

Human Anatomy and Nutrition

Instructor: Leilani Melendez

(813)732-4655

Lei101978@hotmail.com

Duration: 1 year

Grades 3-5

Prerequisite: none

Course Description:

This is an upper elementary science class for student who wants to learn how our bodies work and the relationship between our body systems and nutrition. It will cover the major body systems including (but not limited too) the brain and nervous system, digestive system, respiratory system, muscular, cardiovascular, and endocrine system. This is a biblical based class that will be constant reminder that God has given us charge with maintaining our body system. Each class will include some kind of hands on activity, dissection or experiment, discussion and note booking.

Supplies Needed:

Colored pencils

Pencil or Pen

Three Ring Binder (Empty – I will supply the notebooking pages)

Optional but highly recommended textbooks:

“Nutrition 101: Chose Life!” A Family Nutrican and Health Program
Debra Rayberri , Sera Johnson, Lauren Hopkins, Karen Hopkins

“Exploring Creation With Human Anatomy and Physiology”
Apologia

Grading:

- Class Participation which include hands on activities
- Notebooking
- Class Animal Presentations

Class Fee: Since this class is very hands on there will be a \$50 class fee for supplies make payable to Leilani Melendez.
